Optically Clear Mounting Film Perm-Perm

Features

- ❖ 40 micron Clear Gloss OPP film, with double sided optically clear adhesive.
 - ❖ Double sided Permanent pressure sensitive adhesive.
 - ❖ UV resistant adhesive.
 - ❖ Siliconised polyester release liner on each side, ideal for cut sheets due to twin liner.
 - ❖ Optimised for mounting Photographic and Inkjet prints onto clear substrates.
-

Technical Data

- ❖ 23 micron siliconised polyester release liner. On front and back.
 - ❖ 25 micron 2 sided, permanent, pressure sensitive, optically clear, UV resistant acrylic adhesive.
 - ❖ 40 micron Biaxially Orientated Polypropylene carrier.
 - ❖ Perm adhesive – 8N/25mm 20 min peel from steel. 12N/25mm 24 hr peel from steel.
-

Availability

- ❖ 1050mm, 1370mm, 1530mm x 50m and 100m. 25m rolls available on special request.
- ❖ All rolls on 3" (76mm) core.

Material is ideally stored upright, free from moisture and excessive UV exposure. The above mentioned data is true at time of creation, however due to the developing nature of the components, suitability must be checked before commencing the planned application. We assume no liability or consequential loss. April 2011
